Information as of 12/31/2023

This fund is only available in the Retirement Protector Group Deferred Variable Annuity.

Description:

As a “fund of funds,” the STAR Fund invests in a diversified group of other Vanguard mutual funds, rather than in individual securities. The fund follows a balanced investment approach by placing 60% to 70% of its assets in common stocks through eight stock funds; 20% to 30% of its assets in bonds through two bond funds; and 10% to 20% of its assets in short-term investments through a short-term bond fund. Through its underlying funds, the STAR Fund owns diversified mixes of stocks and bonds. The fund’s stock holdings emphasize large-capitalization stocks of domestic companies and, to a lesser extent, a diversified group of stocks in companies located outside the United States. The fund’s bond holdings focus predominantly on short- and long-term investment-grade corporate bonds and GNMA mortgage-backed securities. This is a moderate investment.
